

RELOCATION & GLOBAL MOBILITY

Home Finding Package

We find the right apartment, shared flat, or house for your new employees – taking their individual preferences and budget into account. We provide our own regional rent guides and discuss the options and, where available, initial offers in a Teams briefing.

We explain the conventions of the German housing market and rental structure – base rent, utilities, deposit – and prepare your employees for dealing with agents and landlords. We propose up to 5 suitable properties, accompany them to viewings, support them with the contractual details, and handle registration with local utility, phone, and internet providers.
